Notice No. 12

Orphan Well Association
Operations in City of Calgary

October 13, 2017

Lexin Orphan Operations 00/10-13-022-29W4/0

Tuesday - Wednesday, October 10-11, 2017 – A cement bond log (GR-RBL-CCL-VDL) was conducted on the well to surface to confirm the quality and cement top behind the casing. Wireline also conducted additional wellbore logging to assist locating the source for the surface casing vent flow and high porosity zones.

Thursday, October 12, 2017 – Operations were shut down to review and analyze logging data.

Friday, October 13, 2017 – Perforated above the Cardium zone and established a feed rate for remedial repair. Ran on wireline gauge ring and junk basket to confirm there were no obstructions inside the well.
