Association**

## Notice No. 8

Orphan Well Association  
Operations in City of Calgary

September 28, 2017

### **Lexin Orphan Operations 00/11-24-022-29W4/0**

Wednesday, September 27, 2017 - An electric wireline unit came on site and set two permanent mechanical plugs called bridge plugs within 15 m of two pre-existing remedial perforations inside the casing. Each bridge plug was pressure tested separately and topped with cement.

Thursday, September 28, 2017 – Today the base of groundwater protection (BGWP) was perforated and remedial cement was squeezed behind the casing to put a cement barrier in place to protect the groundwater.

PLANS – Tear down equipment and move to next well site 00/10-13-022-29W4. Later, surface abandon well by removing wellhead and cutting casing off and capping 2m below ground level.
